

THE GOOGLE ANALYTICS SOLUTION

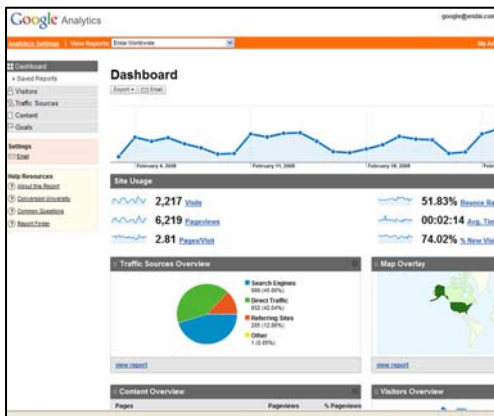

GOOGLE ANALYTICS TRAINING SERVICES

Website data is only valuable when you can understand it, act on it and see results. Endai Worldwide specializes in the implementation and analysis of Google Analytic (GA) data. Our consultants will take you through a step-by-step training process that will leave you with the ability to configure and analyze your own data in a manner that is easy to understand and is relevant to you and your business.

Grow your results not just traffic!

Endai recommends Google Analytics.

Endai Worldwide has selected GA technology so our analysts can concentrate on what is important: the analysis, recommendation and execution to grow your business.

We will teach you to be able to:

- Set up GA with multiple profiles
- Set up Goals, Funnels & Filters
- Integrate GA and Adwords
- Manage automated reporting
- Interpret the data as it applies to your business

Endai can help you.

We are in the business of helping any company that is serious about growing online. We service niche online businesses all the way to Fortune 1000 brands.
